

# Charging structures

This document aims to inform you of the Global Portfolio charges and how they change.

These charges are correct as at 01 January 2022 for all new policies and the following policy form references: GLP4, GPP4, GLP5, GPP5, GLP6 or GPP6 (policy form references can be found on your policy schedule). Charges for policy references not mentioned above, can be found on our website.

Please read this document with the Global Portfolio brochure and product guide. Your financial adviser will be able to answer any questions you have.

If you decide that Global Portfolio is the investment for you, your financial adviser will provide you with your illustration and personal charging structure. This will detail all charges that are taken from your investment.

We charge for setting up and administering your policy. You have the choice between the following two charging structures:

- establishment charge structure or;
- annual policy charge structure.

The type of charging structure you choose when you start your policy will apply to any additional premiums paid.

The policy charges, minimum premium and additional premium amounts vary between these two charging structures, so please speak to your financial adviser to determine which option best suits your needs.

# Establishment charge structure

## Establishment charge

Depending on which establishment charge period you choose, we will take an establishment charge either:

- on the start date of the policy or;
- on the first day of each calendar quarter during the establishment charge period.

The establishment charge is deducted from the General Transaction Account (GTA) in the policy currency and is based on the amount you invest, meaning it will not change as the value of your investment does. The standard establishment charges are:

Premium from	Establishment charge period			
	Day One	5 Year (p.a.)	8 Year (p.a.)	10 Year (p.a.)
SGD 70,000*	8.5%	1.90%	1.25%	0.95%
SGD 890,000*	8.5%-8%^	1.9%-1.86%^	1.25%-1.21%^	0.95%-0.91%^
SGD 1,780,000*	8.0%	1.86%	1.21%	0.91%

^ These charges use interpolation between SGD890,000 and SGD1,780,000 (or currency equivalent); this means that where a premium falls between these limits the establishment charge calculated is proportionally between the two corresponding charges.

When deciding your preferred establishment charge period, please remember that penalties may apply if you cash-in your policy during the establishment charge period. Your illustration and personal charging structure will detail the precise charge and establishment charge period.

You will be charged an establishment charge on each additional premium you pay. The establishment charge period you choose for any additional premiums may be different to that chosen at the start of the policy.

## Initial charge

Nil.

We have listed the applicable charges below in GBP, USD, EUR, AUD, SGD only. For confirmation of the relevant charges in the other available currencies, please contact us.

## Administration charge

We will take a fixed amount on the first day of each calendar quarter for the lifetime of the policy.

Currency	Administration charge
GBP	112.00
SGD	203.20
USD	151.20
AUD	211.00
EUR	131.30

The administration charge will be taken from the GTA in the policy currency. If you agreed to pay your financial adviser a trail commission, this will be added to the administration charge as a percentage of the policy value to allow for this.

## Early surrender charge

If you cash-in your policy during an establishment charge period, an early surrender charge equal to the outstanding establishment charges will apply.

**This charge does not apply if the Day One establishment charge period is chosen.**

## Minimum premium amount

Product variant	Investment management type	Minimum premium
Whole of Life	Non-Discretionary	SGD 70,000*
	Discretionary	SGD 140,000*
	Part-Discretionary	SGD 270,000*

## Minimum additional premium

SGD 8,900\*

**Please remember that investment involves risk. Fund prices may go up and down depending upon underlying investment performance, and the value of your investment cannot be guaranteed. The value of investments can be impacted by foreign exchange rate movements.**

\* or currency equivalent.

# Annual policy charge structure

## Annual policy charge

This charge is equal to a percentage of the higher of:

- the value of the policy or;
- the total premium paid

The percentage is determined by the value of the total premium you pay into Global Portfolio.

Total premium from		Annual policy charge
SGD	150,000*	0.30%
SGD	890,000*	0.25%
SGD	1,780,000*	0.18%
SGD	2,670,000+*	0.15%

The annual policy charge is taken from the GTA in the policy currency for the lifetime of the policy and is dependent on the total premium paid at the date the charge is due.

If you agreed to pay your financial adviser a trail commission, this will be added to the annual policy charge as a percentage of the policy value to allow for this.

## Initial charge

Depending on the initial charge period you choose we will take an initial charge either:

- on the start date of your policy or;
- on the first day of each calendar quarter during the initial charge period.

The initial charge is deducted from the GTA in the policy currency and is based on the amount you invest, meaning it will not change as the value of your investment does.

Premium from	Initial charge period	
	Upfront	5 Years (p.a.)
SGD 150,000*	7%	1.505%

When deciding your preferred initial charge period please remember that penalties may apply if you cash-in your policy during the initial charge period. Details of the precise charge and initial charge period will be in your personal charging structure, available from your financial adviser.

An initial charge will also be taken on any additional premiums you pay. The initial charge period you choose for any additional premiums can be different to the one that you choose at the start of the policy.

**If the upfront initial charge is selected, no surrender penalty will apply.**

## Administration charge

This charge amount is dependent on the initial premium you pay and will be taken on the first day of each calendar quarter for the lifetime of the policy.

Currency	Initial premium from	
	GBP 85,000*	GBP500,000*
GBP	112.00	Nil
SGD	203.20	
USD	151.20	
AUD	211.00	
EUR	131.30	

## Early surrender charge

If you cash-in your policy during an initial charge period, an early surrender charge will apply. The amount of this charge will be equal to the outstanding initial charges.

This charge does not apply if the upfront initial charge period is chosen.

## Minimum premium amount

Investment management type	Minimum premium	
Non-Discretionary	SGD	150,000*
Discretionary	SGD	150,000*
Part-Discretionary	SGD	270,000*

## Minimum additional premium

SGD 17,800\*.

\* or currency equivalent.

In addition to your establishment or annual policy charge, the following charges may also apply:

Dealing charge

We will take a dealing charge for each sale and purchase you make. This will be deducted from the GTA in the currency of the deal, on the last day of the calendar quarter in which the deal was placed. We will not charge this fee when you transfer money from a GTA in one currency to one in a different currency or if you have chosen to appoint a discretionary fund manager to your policy. The current charge is:

Currency	Dealing charge
GBP	33.50
USD	45.20
AUD	63.10
EUR	39.30
SGD	60.80

Asset exchange charge

We will take a charge for each individual asset in relation to your Global Portfolio policy. If it is necessary to convert it into another currency we will do this at the exchange rate on the day the charge is taken.

Charge per asset	USD 200
------------------	---------

Ad hoc charge

A charge will be taken from the GTA in the policy currency each time an alteration is requested. Please speak to your financial adviser to find out more about any alterations which can be made to your Global Portfolio policy. The current charge is:

Currency	Ad hoc charge
GBP	164.00
USD	221.40
SGD	297.50
AUD	309.00
EUR	192.20

General Transaction Account

A General Transaction Account (GTA) will be opened in connection with your policy. If the account is overdrawn, we will levy interest at an appropriate rate based on a suitable reference index approved by our appointed actuary. If you have a discretionary fund manager for your policy, interest will not currently be applied if the account is overdrawn. We reserve the right to review this provision at any time.

Inflation

Our appointed actuary sets the fixed sterling amounts once a year, 28 days before the end of December, in line with Isle of Man inflation. We may increase the charges above the rate of inflation if there are increases in our costs above inflation.

The fixed amount charges in US dollars are set once a year, 28 days before the end of December. The fixed amount charges in currencies other than sterling and US dollars, are set by the appointed actuary four times each year, 28 days prior to the end of each calendar quarter. The amounts are based on the sterling charges but can vary from quarter to quarter depending on movements in exchange rates.

External fund charges

With investments like Global Portfolio it is common for charges to be applied to the underlying assets. We have used our buying power to negotiate discounts with fund management houses on the initial charges, which would be unavailable to the individual investor. These are then passed on to you. Please speak to your financial adviser for more information.

Investment adviser’s charges

If you appoint an investment adviser to choose and, if appropriate, place deals on your behalf, you can agree to pay them, by regular withdrawals, a fixed fee per quarter or a percentage of the value of the investments at each valuation over the term of your policy.

Delivery and receipt charges

Any agents’ charges for delivery and receipt of securities (such as fixed-interest securities and equities) will be taken from the GTA when you buy or sell an asset. Please speak to your financial adviser for further information.

Safe custody on securities

Any agents’ charges in respect of securities, which are held by safe custodian banks throughout the world, will be taken monthly from the GTA.

Stockbroker’s fees

These are charges when you buy or sell certain assets. You will not see them listed separately in your valuation. The stockbroker’s fees are included in the total value shown for each sale or purchase and will be reflected in your trade contract note. Please speak to your financial adviser for further information.

\* or currency equivalent.

## Discretionary fund manager's charges

You can appoint an external manager to manage the investments within your policy, either on a discretionary or advisory basis, and to be the custodian of your investments.

For this service the discretionary fund manager will charge a fixed fee or a percentage of the value of your investments. Expenses and charges will also apply in respect of services for safe keeping, handling and carrying out of transactions, in accordance with the external manager's published rates. We may apply a dealing charge when we send money to or receive money from the discretionary fund manager. Please refer to your discretionary fund manager's schedule of charges for more details.

## Telegraphic Transfer (TT)

Payments out made by Telegraphic Transfer (TT) will incur a charge. The applicable charge depends on the currency the payment out is made in:

SGD	USD	GBP	AUD	CAD	CHF
55.00	40.00	25.00	45.00	45.00	40.00
EUR	HKD	JPY	NZD	SEK	
30.00	310.00	3,320.00	55.00	270.00	

**Note: Friends Provident International reserves the right to vary the fees and charges or impose new fees and charges with not less than one month's prior written notice.**

## Important information

The information given in this document is based on Friends Provident International's current understanding of Isle of Man and UK law and taxation as at 01 January 2022. Friends Provident International does not condone tax evasion. The company's products and service may not be used to evade taxes. No liability can be accepted for any personal tax consequences of this scheme or for the effect of future tax or legislative changes.

Investments held within a fund may not be denominated in the currency of that fund and the value of those assets can go up and down simply because of movements in currency exchange rates.
