<b>Capital Guaranteed</b>	No	<b>Dealing Frequency</b>	Every UK Business Day
<b>Name of Guarantor</b>	N/A	<b>Expense Ratio for the underlying Fund</b>	1.39% (as at 09/02/2022)

### SUB-FUND SUITABILITY

#### WHO IS THE SUB-FUND SUITABLE FOR?

The ILP Sub-Fund is only suitable for investors who seek a high level of income and capital preservation, and to a lesser extent, capital growth; through investment in fixed income securities of any global government or corporate issuer.

It is important to remember that, as with most investments, the value of your investments are not guaranteed and can go down as well as up. Therefore we suggest that you only invest money that can be committed for the medium to long term. You should also bear in mind that securities held within a Fund may not be denominated in the currency of that Fund, so unit prices may fall purely on account of exchange rate fluctuations.

Please note that Friends Provident International Limited (“FPIL”) investment products are intended for medium to long term investment and are not therefore designed for early surrender. If you do surrender early, a product surrender charge may be applied. Please note that the earlier you terminate your plan, the more you may lose.

#### Additional Information

-For details of surrender charges please refer to the section on ‘Fees and Charges’ in the relevant Product Summary.

-Please refer to the ‘Fund Information, Objectives and Investment Policies’ section of the underlying Fund’s Luxembourg Prospectus for further information.

### KEY FEATURES OF THE SUB-FUND

#### WHAT ARE YOU INVESTING IN?

You are investing in an ILP Sub-Fund that invests in the Franklin Templeton Investment Funds – Templeton Global Total Return Fund\* (“the Fund” or “underlying Fund”), apart from a proportionately small amount which may be held in cash to optimise dealing efficiencies in the underlying Fund. We endeavour to maintain a cash balance limit of up to 0.75%.

Please note the ILP Sub-Fund does not distribute income and where applicable will re-invest any income received from the underlying Fund.

\*The underlying Fund is a Sub-Fund of Franklin Templeton Investment Funds (“FTIF”). FTIF is an Open-Ended Investment Company incorporated in Luxembourg and its home regulator is the Commission de Surveillance du Secteur Financier (CSSF).

-Please refer to the ‘Investment Objective, Focus and Approach of the Funds’ section of the underlying Fund’s Singapore Prospectus for further information on the features of the Fund.

<sup>1</sup> The ILP Sub-Fund feeds 100% into the underlying Fund; therefore, some information provided below could be similar to the underlying Fund. In this instance this ILP Sub-Fund will at minimum feed 99.25% into the underlying Fund.

<b>Investment Strategy</b>	
<p>-The Fund's principal investment objective is to maximise, consistent with prudent investment management, total investment return consisting of a combination of interest income, capital appreciation, and currency gains.</p> <p>-The Fund seeks to achieve its objective by investing principally in a portfolio of fixed and floating-rate debt securities and Debt Obligations (including investment grade and non-investment grade securities) issued by government and government-related issuers or corporate entities worldwide. The Fund may also purchase Debt Obligations issued by supranational entities organised or supported by several national governments, such as the International Bank for Reconstruction and Development or the European Investment Bank.</p> <p>-The Fund employs a proprietary Environmental, Social and Governance (ESG) rating methodology to assess government bond issuers, which is derived from a composite of subcategories determined to be material to macroeconomic performance. The research team assigns scores on all invested countries by overlaying their views on a benchmark created by global indexes for current scores.</p> <p>-The Fund may also utilise financial derivative instruments for hedging, Efficient Portfolio Management and investment purposes.</p>	<p>-Please refer to the 'Fund Information, Objectives and Investment Policies' section of the underlying Fund's Luxembourg Prospectus and the 'Investment Objective, Focus and Approach of the Funds' section of the underlying Fund's Singapore Prospectus for further information on the investment strategy of the Fund.</p>
<b>Parties Involved</b>	
<p><b>WHO ARE YOU INVESTING WITH?</b></p> <p><b>Management Company of the underlying Fund:</b> Franklin Templeton International Services S.à.r.l.</p> <p><b>Investment Manager of the underlying Fund:</b> Franklin Advisers, Inc.</p> <p><b>Depository/Custodian of the underlying Fund:</b> J.P. Morgan SE</p> <p><b>Singapore representative of the underlying Fund:</b> Templeton Asset Management Ltd.</p>	<p>-Please refer to the 'Management and Administration' section of the underlying Fund's Singapore Prospectus for further information on the roles and responsibilities of these entities and what happens if they become insolvent.</p>
<b>KEY RISKS</b>	
<p><b>WHAT ARE THE KEY RISKS OF THIS INVESTMENT?</b></p> <p>-The value of an investment is not guaranteed and can go up and down depending on performance. You could get back less than you have paid in. At times, the ILP Sub-Fund may (subject to the Appointed Actuary's agreement and provisions allowed for in the Policy Conditions) need to change the way its price is calculated, to ensure that those moving in and out of the ILP Sub-Fund are treated fairly. This can have a negative effect on the ILP Sub-Fund's price and performance.</p> <p>-Fund managers have the ability, in exceptional circumstances, to suspend trading in their Funds for as long as necessary. When this occurs we will need to delay the redeeming or switching of units in the relevant Fund. You may not be able to access your money during this period.</p> <p><b>These risk factors may cause you to lose some or all of your investment:</b></p>	<p><b><u>Additional Information</u></b></p> <p>-Please refer to the 'Valuations and Pricing' section of your Policy Conditions for further information.</p> <p>-Please refer to the 'Risk Factors' section of the underlying Fund's Singapore Prospectus for further information on the risks of the Fund.</p> <p>-Please refer to the 'Risks' section of the relevant Product Summary for further information.</p>

**Market and Credit Risks**
**Emerging Markets Risks**

-Investments in emerging markets involve certain risks such as currency fluctuations and economic and political uncertainties. These markets are generally smaller in size and have less liquidity than developed markets.

**Issuer Credit Risks**

-If an issuer fails to make principal and interest payments when due, the value of your investment in such issuers will be adversely affected. This Fund invests principally in government securities where there is generally less risk of default than in the case of corporate securities.

**Foreign Exchange Risks**

-The underlying assets of the Fund may be denominated in currencies other than the currency of the share class you have invested into. The value of your investment may rise or fall in line with movements in the relevant exchange rates.

**Liquidity Risks**
**Liquidity Risks**

-In general, the Fund manages its investments, including cash, such that it can meet its liabilities for the redemption of any shares that investors wish to sell. Investments held may need selling if insufficient cash is available to finance such redemptions.

-If the size of the disposals is sufficiently large, or the market is illiquid, then there is a risk that either the investments may sell, or the price at which they sell may adversely affect the Net Asset Value of the Fund.

**Product-Specific Risks**
**Financial Derivative Instruments Risks**

-The Fund may invest in Derivatives, which may be purchased on regulated markets or over-the-counter and may have less liquidity than conventional assets, exposing the Fund to higher risks and potential losses.

**FEES AND CHARGES**
**WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?**

Charges are deducted by both FPIL and the underlying investment managers at each valuation point before calculating the unit price, as set out below.

**FPIL charges (payable directly by you)**

- You will need to pay an ILP Sub-Fund administration charge of 1.2%.
- There is currently no charge for switching Funds although switching to a Fund which differs from your plan currency may involve a cost associated with currency exchange. However, we reserve the right to charge for switches under certain conditions.
- Any sales and/or redemption charges will be determined by the terms of your Policy Conditions.

**Underlying investment managers' charges (these charges are as at 09/02/22 and are payable by the ILP Sub-Fund from invested proceeds)**

Annual Management Charge (AMC)	1.05%
Additional Expenses	0.34%
Expense Ratio	1.39%
Performance Fee	Nil

-For full details of the charges that may apply, please refer to the section on 'Fees and Charges' in the relevant Product Summary.

-Please refer to the 'Charges' section of your Policy Conditions for further information.

**VALUATIONS AND EXITING FROM THIS INVESTMENT**
**HOW OFTEN ARE VALUATIONS AVAILABLE?**

Every UK Business Day

Latest Fund prices can be obtained from <http://www.fpinternational.sg/Fund-centre/>

**HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?**

-There is a cooling off period of 30 days from when you receive your Policy Documents. If you decide to exit the policy during this time you should complete the Cancellation Form (enclosed with your Policy Documents) and send this back to the address provided, together with the original Policy Documents. We will refund any monies paid, less any shortfall (if any) as a result of the value of your investment falling by the time you tell us of your wish to cancel. If you elect to exit your policy after the cooling off period has expired, penalties may be applied.

-If you no longer wish to invest in this FPIL ILP Sub-Fund you have selected, you may switch all or part of your holdings into an alternative Fund(s) by sending us a completed Switch/Redirection Request form, signed. Switching from one Fund to another is done on a bid to bid basis, without charge (although we do reserve the right to charge). If you are switching between currencies, the relevant exchange rates will be applied and shown on your switch confirmation.

The sale proceeds that you will receive will be the realisation price multiplied by the number of units sold, less any charges. An example (assuming a redemption charge of 4%) is as follows\*:

Realisation price proceeds	Number of units sold	Gross Realisation
S\$0.93	x 100,000	= S\$93,000

Gross Realisation price proceeds	Realisation Fee	Net Realisation
S\$93,000	- S\$3,720	= S\$89,280

**Additional Information**

-Please refer to the 'Valuations and Pricing' section of your Policy Conditions for further information.

\*For full details of the charges that may apply please refer to the section on 'Fees and Charges' in the relevant Product Summary.

Singapore 069547

**APPENDIX : GLOSSARY OF TERMS**
**Debt Obligation**

This is a general term for bonds, mortgages, and other kinds of loans.

**Derivatives**

Also known as Financial Derivative Instruments (FDI). Financial contracts whose value is tied to an underlying asset.

**Efficient Portfolio Management (EPM)**

EPM is a set of standards for prudent management of investment funds. The standards call for economically appropriate transactions that reduce risk, reduce cost or generate additional capital or income. For example, a currency overlay strategy using derivative instruments could be used to reduce volatility in asset returns resulting from currency fluctuations or be used to take advantage of these fluctuations to gain extra return.

**Expense Ratio**

The Expense Ratio provides customers with an indication of the overall costs of investing in a particular Fund. The Expense Ratio is calculated in accordance with the Investment Management Association of Singapore's guidelines on the disclosure of Expense Ratios. Different methods can be used when calculating the Expense Ratio of a Fund, including Total Expense Ratio (TER) and Ongoing Charges Figure (OCF) but these are broadly the same.

**Net Asset Value (NAV)**

Net Asset Value is the value of the net assets of the Fund after deducting all expenses.

**Ongoing Charges Figure (OCF)**

A type of Expense Ratio. The Ongoing Charges Figure is based on expenses for the previous year and is a ratio of the total ongoing charges and the Fund's average Net Asset Value over its last reporting period. This figure may vary from year to year. The charges you pay are used to pay the costs of the underlying ILP Sub-Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

For more information about charges, please consult the Prospectus for the underlying Fund of the ILP Sub-Fund invested in, available from [www.fpinternational.sg/phs](http://www.fpinternational.sg/phs). Details of the calculation methodology can be found in full at [www.esma.europa.eu/sites/default/files/library/2015/11/10\\_674.pdf](http://www.esma.europa.eu/sites/default/files/library/2015/11/10_674.pdf)

**Open-Ended Investment Company**

An open-ended collective investment vehicle, structured as an investment company, where new shares are created or redeemed, depending on demand from investors.

**Specified Investment Product (SIP)**

SIP is a class of investment products defined by the Monetary Authority of Singapore (MAS). Generally, (although not in all instances), financial advisers have to carry out more due diligence, including customer knowledge assessment, when advising about a SIP.
