### SUB-FUND SUITABILITY

#### WHO IS THE SUB-FUND SUITABLE FOR?

The ILP Sub-Fund is only suitable for investors who seek capital appreciation; seek to invest in securities of companies in Brazil, Russia, India and China, including Hong Kong and Taiwan; and plan to hold their investment for the medium to long term. Please note the ILP Sub-Fund does not distribute income and where applicable will re-invest any income received from the underlying Fund.

It is important to remember that, as with most investments, the value of your investments are not guaranteed and can go down as well as up. Therefore we suggest that you only invest money that can be committed for the medium to long term. You should also bear in mind that securities held within a Fund may not be denominated in the currency of that Fund, so unit prices may fall purely on account of exchange rate fluctuations.

Please note that Friends Provident International Limited (FPIL) investment products are intended for medium to long term investment and are not therefore designed for early surrender. If you do surrender early, a product surrender charge may be applied. Please note that the earlier you terminate your plan, the more you may lose.

#### Additional Information

-For details of surrender charges please refer to the 'Fees and Charges' section in the relevant Product Summary.

-Please refer to the 'Fund Information, Objectives and Investment Policies' section of the underlying Fund's Luxembourg Prospectus for further information.

### KEY FEATURES OF THE SUB-FUND

#### WHAT ARE YOU INVESTING IN?

You are investing in an ILP Sub-Fund that invests in the Franklin Templeton Investment Funds – Templeton BRIC Fund\* ("the Fund" or "underlying Fund"), apart from a proportionately small amount which may be held in cash to optimise dealing efficiencies in the underlying Fund. We endeavour to maintain a cash balance limit of up to 0.75%.

\*The underlying Fund is a Sub-Fund of Franklin Templeton Investment Funds ("FTIF"). FTIF is an Open-Ended Investment Company incorporated in Luxembourg and its home regulator is the Commission de Surveillance du Secteur Financier (CSSF).

Please refer to the 'Investment Objective, Focus and Approach of the Funds' section of the underlying Fund's Singapore Prospectus for further information on the features of the Fund.

<sup>1</sup> The ILP Sub-Fund feeds 100% into the underlying Fund, therefore some information provided below could be similar to the underlying Fund. In this instance this ILP Sub-Fund will at minimum feed 99.25% into the underlying Fund.

Investment Strategy	
<p>-The Fund will invest primarily in Equity Securities of companies (i) registered under the laws of, or with their principal office in Brazil, Russia, India and China (including Hong-Kong and Taiwan) ('BRIC'), or (ii) which derive the principal portion of their revenues or profits from BRIC economies or have the principal portion of their assets in BRIC economies.</p> <p>-The Fund may also invest in other types of securities, including debt securities and money market instruments. The Fund may also invest up to 10% of its net assets in units of UCITS or other UCIs.</p> <p>-The Fund may invest up to 20% of its net assets in aggregate in China A-Shares (through Shanghai Hong-Kong Stock Connect or Shenzhen-Hong Kong Stock Connect) and in China B-Shares.</p> <p>-For the purpose of generating additional capital or income or for reducing costs or risks, the Fund may engage in securities lending transactions for up to 50% of its net assets, in a manner that is consistent with its investment policy.</p>	<p>-Please refer to the 'Fund Information, Objectives and Investment Policies' section of the underlying Fund's Luxembourg Prospectus for further information on the investment strategy of the Fund.</p>

KEY RISKS	
<p><b>WHAT ARE THE KEY RISKS OF THIS INVESTMENT?</b></p> <p>-The value of an investment is not guaranteed and can go up and down depending on performance. You could get back less than you have paid in. At times, the ILP Sub-Fund may (subject to the Appointed Actuary's agreement and provisions allowed for in the Policy Conditions) need to change the way its price is calculated, to ensure that those moving in and out of the ILP Sub-Fund are treated fairly. This can have a negative effect on the ILP Sub-Fund's price and performance.</p> <p>-Fund managers have the ability, in exceptional circumstances, to suspend trading in their Funds for as long as necessary. When this occurs we will need to delay the redeeming or switching of units in the relevant Fund. You may not be able to access your money during this period.</p> <p><b>These risk factors may cause you to lose some or all of your investment:</b></p>	<p><b>Additional Information</b></p> <p>-Please refer to the 'Valuations and Pricing' section of your Policy Conditions for further information.</p> <p>-Please refer to the 'Risk Factors' section of the underlying Fund's Singapore Prospectus for further information on the risks of the Fund.</p> <p>-Please refer to the 'Risks' section of the relevant Product Summary for further information.</p>

**Market and Credit Risks**
**Equity Risks**

-Your investments may be subject to significant price movements due to the impact of economic, political, market, and issuer-specific factors.

**Emerging Markets Risks**

-Investments in emerging markets involve certain risks such as currency fluctuations and economic and political uncertainties. These markets are generally smaller in size and have less liquidity than developed markets.

**Foreign Exchange Risks**

-The underlying assets of the Fund may be denominated in currencies other than the currency of the share class you have invested into. The value of your investment may rise or fall in line with movements in the relevant exchange rates.

**Liquidity Risks**
**Liquidity Risks**

-There may be occasions when the manager is unable to sell some or all of the shares within the Fund, which could delay payment or redemption of proceeds.

-Redemptions in the Fund may be suspended in certain circumstances detailed in the Prospectus; this may in turn affect the ILP Sub-Fund.

**Product-Specific Risks**
**Stock Connect Risks**

-Investments through the Stock Connect are subject to additional risks, namely, quota limitations, suspension risk, operational risk, restrictions on selling imposed by front-end monitoring, recalling of eligible stocks, clearing and settlement risks and regulatory risk.

**Chinese Market Risks**

-Investing in Emerging Markets such as the PRC subjects the Sub-Fund to a higher level of market risk than investments in a developed country. This is due to, among other things, greater market volatility, lower trading volume, political and economic instability, settlement risk, greater risk of market shut down and more governmental limitations on foreign investment than those typically found in developed markets.

If you decide to exit the policy during this time you should complete the Cancellation Form (enclosed with your Policy Documents) and send this back to the address provided, together with the original Policy Documents.
