SUB-FUND SUITABILITY

WHO IS THE SUB-FUND SUITABLE FOR?

The ILP Sub-Fund is only suitable for investors who seek long term capital growth through investing in the European Equity markets. Unless otherwise specified in the investment objective, the income from these funds is expected to be low.

It is important to remember that, as with most investments, the value of your investments are not guaranteed and can go down as well as up. Therefore we suggest that you only invest money that can be committed for the medium to long term. You should also bear in mind that securities held within a Fund may not be denominated in the currency of that Fund, so unit prices may fall purely on account of exchange rate fluctuations.

Please note that Friends Provident International Limited ("FPIL") investment products are intended for medium to long term investment and are not therefore designed for early surrender. If you do surrender early, a product surrender charge may be applied. Please note that the earlier you terminate your plan, the more you may lose.

Additional Information

-For details of surrender charges please refer to the 'Fees and Charges' section in the relevant Product Summary.

-Please refer to the 'Investment Policies and Objectives' section of the underlying Fund's Luxembourg Prospectus for further information on the suitability of the Sub-Fund.

KEY FEATURES OF THE SUB-FUND

WHAT ARE YOU INVESTING IN?

You are investing in an ILP Sub-Fund that invests in the Fidelity Funds – Sustainable Europe Equity Fund* ("the Fund" or "underlying Fund"), apart from a proportionately small amount which may be held in cash to optimise dealing efficiencies in the underlying Fund. We endeavour to maintain a cash balance limit of up to 0.75%.

*The underlying Fund is a Sub-Fund of Fidelity Funds. Fidelity Funds is an Open-Ended Investment Company incorporated in Luxembourg and its home regulator is the Commission de Surveillance du Secteur Financier (CSSF).

-Please refer to the 'The Fund Information' section of the underlying Fund's Luxembourg Prospectus for further information on the features of the Fund.

¹ The ILP Sub-Fund feeds 100% into the underlying Fund, therefore some information provided below could be similar to the underlying Fund. In this instance, this ILP Sub-Fund will at a minimum, feed 99.25% into the underlying Fund.

Investment Strategy	
<p>-The Fund aims to achieve long-term growth, primarily through investments in European Equity securities.</p> <p>-The fund is part of the Fidelity Sustainable Family of Funds and adopts a Sustainable Focused strategy under which a minimum of 90% of the fund's net assets will be analysed as to whether they maintain sustainable characteristics and a minimum of 70% of the fund's net assets will be invested in securities deemed to maintain sustainable characteristics.</p> <p>-The fund will consider a wide range of environmental and social characteristics on an ongoing basis. Environmental characteristics include, but are not limited to, climate change mitigation and adaptation, water and waste management and biodiversity, while social characteristics include, but are not limited to, product safety, supply chain, health and safety and human rights.</p> <p>-The Fund is actively managed. The Investment Manager will, when selecting investments for the Fund and for the purposes of monitoring risk, reference the MSCI Europe Index (the "Index"), as the Index constituents are representative of the type of companies the Fund invests in. The Fund's performance can be assessed against its Index.</p> <p>-The Investment Manager has a wide range of discretion relative to the Index. While the Fund will hold assets that are components of the Index, it may also invest in companies, countries or sectors that are not included in, and that have different weightings from the Index in order to take advantage of investment opportunities.</p>	<p>-Please refer to the 'Investment Policies and Objectives' section of the underlying Fund's Luxembourg prospectus for further information on the investment strategy of the Fund.</p>
Parties Involved	
<p>WHO ARE YOU INVESTING WITH?</p> <p>Management Company of the underlying Fund: FIL Investment Management (Luxembourg) S.A.</p> <p>Investment Manager of the underlying Fund: FIL Fund Management Limited</p> <p>Depository of the underlying Fund: Brown Brothers Harriman (Luxembourg) S.C.A.</p> <p>Singapore Representative: FIL Investment Management (Singapore) Limited.</p>	<p>-Please refer to the 'Administration Details, Charges and Expenses' section of the underlying Fund's Singapore Prospectus for further information on the roles and responsibilities of these entities and what happens if they become insolvent.</p>
KEY RISKS	
<p>WHAT ARE THE KEY RISKS OF THIS INVESTMENT?</p> <p>-The value of an investment is not guaranteed and can go up and down depending on performance. You could get back less than you have paid in. At times, the ILP Sub-Fund may (Subject to the Appointed Actuary's agreement and provisions allowed for in the Policy Conditions) need to change the way its price is calculated, to ensure that those moving in and out of the ILP Sub-Fund are fairly treated. This can have a negative effect on the ILP Sub-Fund's price and performance.</p> <p>-Fund managers have the ability, in exceptional circumstances, to suspend trading in their Funds for as long as necessary. When this occurs, we will need to delay the redeeming or switching of units in the relevant Fund. You may not be able to access your money during this period.</p>	<p><u>Additional Information</u></p> <p>-Please refer to the 'Valuations and Pricing' section of your Policy Conditions for further information.</p> <p>-Please refer to the 'Risk Factors' section of the underlying Fund's Luxembourg Prospectus for further information on the risks of the Fund.</p>

These risk factors may cause you to lose some or all of your investment:	-Please refer to the 'Risks' section of the relevant Product Summary for further information.
Market and Credit Risks	
Foreign Exchange Risks -The underlying assets of the Fund may be denominated in currencies other than the currency of the share class you have invested into. The value of your investment may rise or fall in line with movements in the relevant exchange rates.	
Liquidity Risks	
Liquidity Risks -In general the Fund manages its investments, including cash, such that it can meet its liabilities for the redemption of any shares that investors wish to sell. Investments held may need to be sold if insufficient cash is available to finance such redemptions. -If the size of the disposals is sufficiently large, or the market is illiquid, then there is a risk that either the investments might not be sold or the price at which they are sold may adversely affect the Net Asset Value of the Fund.	
Product-Specific Risks	
Equity Risks -The value of stocks may fluctuate, sometimes dramatically, in response to the activities and results of individual companies or because of general market and economic conditions or other events, including changes in investment sentiment, political and issuer-specific factors. Financial Derivative Instruments Risks -The use of Financial Derivative Instruments may give rise to Leverage, liquidity, counterparty and valuation risks at times. Given the Leverage effect embedded in derivatives, such investments may result in higher volatility or a significant loss in the Fund's assets within a short period of time. Eurozone Risks -The performance of Funds closely tied to the economic, political, regulatory, geopolitical, market, currency or other conditions in the Eurozone could be more volatile than the performance of more geographically diversified funds. Securities Lending Risks - Securities Lending involves risks in that (a) if the borrower of securities lent by a fund fails to return them there is a risk that the collateral received may realise less than the value of the securities lent out, and (b) in case of reinvestment of cash collateral such reinvestment may (i) create Leverage with corresponding risks (ii) introduce market exposures inconsistent with the investment objective of the fund, or (iii) yield a sum less than the amount of collateral to be returned and that delays in the return of securities on loans may restrict the ability of a fund to meet delivery obligations under security sales.	
FEES AND CHARGES	
WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT? Charges are deducted by both FPIL and the underlying investment managers at each valuation point before calculating the unit price, as set out below. FPIL charges (payable directly by you) -You will need to pay an ILP Sub-Fund administration charge of 1.2%. -There is currently no charge for switching Funds although switching to a Fund which differs from your plan currency may involve a cost associated with currency exchange. However, we reserve the right to charge for switches under certain conditions.	-For full details of the charges that may apply please refer to the 'Fees and Charges' section in the relevant Product Summary.

If you decide to exit the policy during this time you should complete the Cancellation Form (enclosed with your Policy Documents) and send this back to the address provided, together with the original Policy Documents. If you elect to exit your policy after the cooling off period has expired, penalties may be applied.

-If you no longer wish to invest in the FPIL ILP Sub-Fund you have selected, you may switch all or part of your holdings into an alternative Fund(s) by sending us a completed Switch/Redirection Request form, signed. S\$0.93	x 100,000	= S\$93,000
Gross Realisation price proceeds	Realisation Fee	Net Realisation
S\$93,000	- S\$3,720	= S\$89,280
