SUB-FUND SUITABILITY

WHO IS THE SUB-FUND SUITABLE FOR?

The ILP Sub-Fund is only suitable for investors who seek long-term capital growth, through investment in the Chinese Equity markets.

It is important to remember that, as with most investments, the value of your investments are not guaranteed and can go down as well as up. Therefore, we suggest that you only invest money that can be committed for the medium to long term. You should also bear in mind that securities held within a Fund may not be denominated in the currency of that Fund, so unit prices may fall purely on account of exchange rate fluctuations.

Please note that Friends Provident International Limited ("FPIL") investment products are intended for medium to long-term investment and are not therefore designed for early surrender. If you do surrender early, a product surrender charge may be applied. Please note that the earlier you terminate your plan, the more you may lose.

Additional Information

-For details of surrender charges, please refer to the section on 'Fees and Charges' in the relevant Product Summary.

-Please refer to the 'Investment Objectives and Policies', and 'Risk Factors' sections of the underlying Fund's Singapore Prospectus for further information on the suitability of the Sub-Fund.

KEY FEATURES OF THE SUB-FUND

WHAT ARE YOU INVESTING IN?

You are investing in an ILP Sub-Fund that invests in the Janus Henderson Horizon China Opportunities Fund* ("the Fund" or "underlying Fund"), apart from a proportionately small amount which may be held in cash to optimise dealing efficiencies in the underlying Fund. We endeavour to maintain a cash balance limit of up to 0.75%.

*The underlying Fund is a Sub-Fund of the Janus Henderson Horizon Fund. Janus Henderson Horizon Fund is an Open-Ended Investment Company incorporated in Luxembourg and its home regulator is the Commission de Surveillance du Secteur Financier (CSSF).

-Please refer to the 'The Sub-Funds' section of the underlying Fund's Singapore Prospectus for further information on the features of the Fund.

¹ The ILP Sub-Fund feeds 100% into the underlying Fund; therefore, some information provided below could be similar to the underlying Fund. In this instance, this ILP Sub-Fund will at a minimum, feed 99.25% into the underlying Fund.

Investment Strategy	
<p>-The Fund will invest at least 80% of its net assets in Equities or Equity-Related Instruments of; (i) companies having their registered office in China and Hong Kong; (ii) companies that do not have their registered office in China and Hong Kong but do most of their business, either directly or through subsidiaries, in China and Hong Kong.</p> <p>-Equities may include China A-Shares, directly through the Stock Connect Programs and other eligible exchanges or indirectly through derivative instruments. Exposure to China A-Shares will not be more than 50% of the Fund's Net Asset Value.</p> <p>-The Fund may invest in companies of any size, including smaller capitalisation companies, in any industry.</p> <p>-The Fund may use derivative instruments (such as futures, forwards, options and warrants) to reduce risk and to manage the Fund more efficiently.</p> <p>-Exclusionary screens apply to avoid investment in entities involved in the manufacturing or controversial weapons.</p>	<p>-Please refer to the 'Investment Objectives and Policies', and the 'Risk Factors' sections of the underlying Fund's Singapore Prospectus for further suitability of the Sub-Fund.</p>
Parties Involved	
<p>WHO ARE YOU INVESTING WITH?</p> <p>Management Company of the underlying Fund: Janus Henderson Investors Europe S.A.</p> <p>Investment Manager of the underlying Fund: Janus Henderson Investors UK Limited</p> <p>Depository of underlying Fund: BNP Paribas - Luxembourg Branch</p> <p>Singapore Representative of the underlying Fund: Janus Henderson Investors (Singapore) Limited</p>	<p>-Please refer to the 'Management and Administration' section of the underlying Fund's Singapore prospectus for further information on the roles and responsibilities of these entities and what happens if they become insolvent.</p>
KEY RISKS	
<p>WHAT ARE THE KEY RISKS OF THIS INVESTMENT?</p> <p>-The value of an investment is not guaranteed and can go up and down depending on performance. You could get back less than you have paid in. At times, the ILP Sub-Fund may (Subject to the Appointed Actuary's agreement and provisions allowed for in the Policy Conditions) need to change the way its price is calculated, to ensure that those moving in and out of the ILP Sub-Fund are fairly treated. This can have a negative effect on the ILP Sub-Fund's price and performance.</p> <p>-Fund managers have the ability, in exceptional circumstances, to suspend trading in their Funds for as long as necessary. When this occurs, we will need to delay the redeeming or switching of units in the relevant Fund. You may not be able to access your money during this period.</p> <p>These risk factors may cause you to lose some or all of your investment.</p>	<p>Additional Information</p> <p>-Please refer to the 'Valuations and Pricing' section of your Policy Conditions for further information.</p> <p>-Please refer to the 'Risk Factors' section of the underlying Fund's Singapore prospectus and the 'Investment and Risk Considerations' sections of the underlying Fund's Luxembourg Prospectus for further information on the risks of the Fund.</p> <p>-Please refer to the 'Risks' section of the relevant Product Summary for further information.</p>

Market and Credit Risks	
Foreign Exchange Risks -The underlying assets of the Fund may be denominated in currencies other than the currency of the share class you have invested into. The value of your investment may rise or fall in line with movements in the relevant exchange rates.	
Liquidity Risks	
Liquidity Risks -The Fund may be adversely affected by a decrease in market liquidity for the securities in which it invests which may impair the Fund's ability to execute transactions. In such circumstances, some of the Fund's securities may become illiquid which may mean the Fund may experience difficulties in selling securities at a fair price within a timely manner.	
Product-Specific Risks	
Chinese Market Risks -Investing in Emerging Markets such as the PRC subjects the Sub-Fund to a higher level of market risk than investments in a developed country. This is due to, among other things, greater market volatility, lower trading volume, political and economic instability, settlement risk, greater risk of market shut down and more governmental limitations on foreign investment than those typically found in developed markets.	
Stock Connect Risks -Investments through the Stock Connect are subject to additional risks, namely, quota limitations, suspension risk, operational risk, restrictions on selling imposed by front-end monitoring, recalling of eligible stocks, clearing and settlement risks and regulatory risk.	
Equity Risks -The value of stocks may fluctuate, sometimes dramatically, in response to the activities and results of individual companies or because of general market and economic conditions or other events, including changes in investment sentiment, political and issuer-specific factors.	
Financial Derivative Instruments Risks -The use of Financial Derivative Instruments may give rise to Leverage, liquidity, counterparty and valuation risks at times. Given the Leverage effect embedded in derivatives, such investments may result in higher volatility or a significant loss in the Fund's assets within a short period of time.	
Securities Lending Risks -Where a Fund engages in stock lending transactions, it may be exposed to operational, liquidity, counterparty, custody legal and cash reinvestment risk.	
Emerging Market Risks -Emerging markets are less established and more prone to political events than developed markets, such as government intervention, remittance of Funds or quota restrictions, unorthodox custody practices, unproven trading programs and uncertain legal rights. This can mean both higher volatility and a greater risk of loss to the Fund than when investing in more developed markets.
