Capital Guaranteed	No	Dealing Frequency	Every UK Business Day
Name of Guarantor	N/A	Expense Ratio for the underlying Fund	1.04% (as at 02/02/2022)

SUB-FUND SUITABILITY

WHO IS THE SUB-FUND SUITABLE FOR?

The ILP Sub-Fund is only suitable for investors seeking a relatively high level income with the possibility of capital gains, through investment in debt markets while being prepared to accept the risks described under the "Key Risks" section below.

It is important to remember that, as with most investments, the value of your investments are not guaranteed and can go down as well as up. Therefore we suggest that you only invest money that can be committed for the medium to long term. You should also bear in mind that securities held within a Fund may not be denominated in the currency of that Fund, so unit prices may fall purely on account of exchange rate fluctuations.

Please note that Friends Provident International Limited ("FPIL") investment products are intended for medium to long term investment and are not therefore designed for early surrender. If you do surrender early, a product surrender charge may be applied. Please note that the earlier you terminate your plan, the more you may lose.

Additional Information

-For details of surrender charges please refer to the section on 'Fees and Charges' in the relevant Product Summary.

-Please refer to the underlying Fund's Prospectus for further information on the suitability of the Sub-Fund.

KEY FEATURES OF THE SUB-FUND

WHAT ARE YOU INVESTING IN?

You are investing in an ILP Sub-Fund that invests in the Fidelity Funds – US Dollar Bond Fund* ('the Fund' or 'underlying Fund'), apart from a proportionately small amount which may be held in cash to optimise dealing efficiencies in the underlying Fund. We endeavour to maintain a cash balance limit of up to 0.75%.

*The underlying Fund is a Sub-Fund of Fidelity Funds. Fidelity Funds is an Open-Ended Investment Company incorporated in Luxembourg and its home regulator is the Commission de Surveillance du Secteur Financier (CSSF).

Please refer to the 'Investment Objective' section of the underlying Fund's Singapore prospectus for further information on the features of the Fund.

¹ The ILP Sub-Fund feeds 100% into the underlying Fund, therefore some information provided below could be similar to the underlying Fund. In this instance, this ILP Sub-Fund will at a minimum, feed 99.25% into the underlying Fund.

Investment Strategy	
<p>-The Sub-Fund invests principally in US Dollar denominated debt securities.</p> <p>-A minimum of 50% of the fund's net assets will be invested in securities deemed to maintain sustainable characteristics. The fund will consider a wide range of environmental and social characteristics on an ongoing basis. Environmental characteristics include but are not limited to climate change mitigation and adaptation, water and waste management, biodiversity, while social characteristics include but are not limited to product safety, supply chain, health and safety and human rights.</p> <p>-The Sub-Fund is actively managed. The Investment Manager will, when selecting investments for the Sub-Fund and for the purposes of monitoring risk, consider the ICE BofAML US Large Cap Corporate & Government Index (the "Index") as the Index constituents best represent the characteristics the Sub-Fund is seeking to gain exposure to.</p> <p>-The Investment Manager has a wide degree of freedom relative to the Index with regards to investment selection and it may invest in issuers, sectors, countries and security types not included in the Index in order to take advantage of investment opportunities.</p>	<p>-Please refer to the 'Investment Policies and Objectives' section of the underlying Fund's Luxembourg Prospectus for further information on the investment strategy of the Fund.</p>
Parties Involved	
<p>WHO ARE YOU INVESTING WITH?</p> <p>Management Company of the underlying Fund: FIL Investment Management (Luxembourg) S.A.</p> <p>Investment Manager of the underlying Fund: FIL Fund Management Limited</p> <p>Depository of the underlying Fund: Brown Brothers Harriman (Luxembourg) S.C.A.</p> <p>Singapore Representative: FIL Investment Management (Singapore) Limited.</p>	<p>-Please refer to the 'Administration Details, Charges and Expenses' section of the underlying Fund's Singapore Prospectus for further information on the roles and responsibilities of these entities and what happens if they become insolvent.</p>
KEY RISKS	
<p>WHAT ARE THE KEY RISKS OF THIS INVESTMENT?</p> <p>-The value of an investment is not guaranteed and can go up and down depending on performance. You could get back less than you have paid in. At times, the ILP Sub-Fund may (Subject to the Appointed Actuary's agreement and provisions allowed for in the Policy Conditions) need to change the way its price is calculated, to ensure that those moving in and out of the ILP Sub-Fund are fairly treated. This can have a negative effect on the ILP Sub-Fund's price and performance.</p> <p>-Fund managers have the ability, in exceptional circumstances, to suspend trading in their Funds for as long as necessary. When this occurs, we will need to delay the redeeming or switching of units in the relevant Fund. You may not be able to access your money during this period</p> <p>These risk factors may cause you to lose some or all of your investment:</p>	<p>Additional Information</p> <p>-Please refer to the 'Valuations and Pricing' section of your Policy Conditions for further information.</p> <p>-Please refer to the 'Risk Factors' section of the underlying Fund's Prospectus for further information on the risks of the Fund.</p> <p>-Please refer to the 'Risks' section of the relevant Product Summary for further information.</p>

Market and Credit Risks	
Foreign Exchange Risks -The underlying assets of the Fund may be denominated in currencies other than the currency of the share class you have invested into. The value of your investment may rise or fall in line with movements in the relevant exchange rates.	
Liquidity Risks	
Liquidity Risks -In general the Fund manages its investments, including cash, such that it can meet its liabilities for the redemption of any shares that investors wish to sell. Investments held may need to be sold if insufficient cash is available to finance such redemptions. -If the size of the disposals is sufficiently large, or the market is illiquid, then there is a risk that either the investments might not be sold or the price at which they are sold may adversely affect the Net Asset Value of the Fund.	
Product-Specific Risks	
Lower Rated/Unrated Securities Risk -The credit quality of Debt Instruments is often assessed by rating agencies. Lower-rated securities (below Investment Grade) and unrated securities may be higher yielding but be subject to wider fluctuations in yield, wider bid-offer spreads, lower liquidity and consequently greater fluctuations in market values and greater risk of loss of principal and interest, than higher-rated (Investment Grade) securities. Stock/Issuer Concentration Risks -The Sub-Fund's NAV may be more volatile due to the concentration of investments in a relatively small number of investments or issuers compared to a more diversified portfolio. Financial Derivative Instruments Risks -The use of Financial Derivative Instruments may give rise to Leverage, liquidity, counterparty and valuation risks at times. Given the Leverage effect embedded in derivatives, such investments may result in higher Volatility or a significant loss in the Fund's assets within a short period of time. Country Concentration Risks -The Sub-Fund's concentrated investment in a single or small number of countries may increase its Volatility due to the greater exposure to market, political, policy, foreign exchange, liquidity, tax, legal, regulatory, economic and social risks of those countries.	
FEES AND CHARGES	
WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT? Charges are deducted by both FPIL and the underlying investment managers at each valuation point before calculating the unit price, as set out below. FPIL charges (payable directly by you) -You will need to pay an ILP Sub-Fund administration charge of 1.2%. -There is currently no charge for switching Funds although switching to a Fund which differs from your plan currency may involve a cost associated with currency exchange. However, we reserve the right to charge for switches under certain conditions -Any sales and/or redemption charges will be determined by the terms of your Policy Conditions.	-For full details of the charges that may apply please refer to the section on 'Fees and Charges' in the relevant Product Summary. -Please refer to the 'Charges' section of your Policy Conditions for further information.

Underlying investment managers' charges (these charges are as at 02/02/22 and are payable by the ILP Sub-Fund from invested proceeds)

Annual Management Charge (AMC)	0.75%
Additional Expenses	0.29%
Expense Ratio *	1.04%
Performance Fee	Nil

VALUATIONS AND EXITING FROM THIS INVESTMENT

HOW OFTEN ARE VALUATIONS AVAILABLE?

Every UK Business Day

Latest Fund prices can be obtained from <http://www.fpinternational.sg/Fund-centre/>

HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

-There is a cooling off period of 30 days from when you receive your Policy Documents. If you decide to exit the policy during this time you should complete the Cancellation Form (enclosed with your Policy Documents) and send this back to the address provided, together with the original Policy Documents. We will refund any monies paid, less any shortfall (if any) as a result of the value of your investment falling by the time you tell us of your wish to cancel. If you elect to exit your policy after the cooling off period has expired, penalties may be applied.

-If you no longer wish to invest in the FPIL ILP Sub-Fund you have selected, you may switch all or part of your holdings into an alternative Fund(s) by sending us a completed Switch/Redirection Request form, signed. Switching from one Fund to another is done on a bid-to-bid basis, without charge (although we do reserve the right to charge). If you are switching between currencies, the relevant exchange rates will be applied, and shown on your switch confirmation.

-The sale proceeds that you receive will be the realisation price multiplied by the number of units sold, less any charges. An example (assuming a redemption charge of 4%) is as follows*:

Realisation price proceeds	Number of units sold	Gross Realisation
S\$0.93	x 100,000	= S\$93,000

Gross Realisation price proceeds	Realisation Fee	Net Realisation
S\$93,000	- S\$3,720	= S\$89,280

Additional Information

Please refer to the 'Valuations and Pricing' section of your Policy Conditions for further information.

* For full details of the charges that may apply please refer to the section on 'Fees and Charges' in the relevant Product Summary.

APPENDIX : GLOSSARY OF TERMS

Bond/Fixed Interest Security

A Bond is a type of investment that represents a written promise to repay a debt at an agreed time and to pay an agreed rate of interest on that debt. It provides periodic payments (which may be fixed or variable) and the return of capital at maturity. Generally, because these types of assets produce an income and can be less risky than other types of assets they offer a lower return.

Debt Instrument

A paper or electronic obligation that enables the issuing party to raise funds by promising to repay a lender in accordance with terms of a contract. Types of Debt Instruments include notes, Bonds, certificates, mortgages, leases or other agreements between a lender and a borrower.

Expense Ratio

The Expense Ratio provides customers with an indication of the overall costs of investing in a particular Fund. The Expense Ratio as calculated in accordance with the Investment Management Association of Singapore's guidelines on the disclosure of Expense Ratios. Different methods of calculation of Expense Ratio can be used, including Total Expense Ratio (TER) and Ongoing Charges Figure (OCF) but these are broadly the same.

Financial Derivative Instruments (FDI)

Also known as derivatives, they are financial contracts, the value of which is tied to an underlying asset. Examples of derivatives include futures, options and warrants

Investment Grade

A rating that indicates that a municipal or corporate Bond has a relatively low risk of default.

Leverage

The use of financial instruments to increase the potential return of an investment.

Ongoing Charges Figure (OCF)

A type of Expense Ratio. The Ongoing Charges Figure is based on expenses for the previous year and is a ratio of the total ongoing charges and the Fund's average Net Asset Value over its last reporting period. This figure may vary from year to year. The charges you pay are used to pay the costs of the underlying ILP Sub-Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

For more information about charges, please consult the Prospectus for the underlying Fund of the ILP Sub-Fund invested in, available from www.fpinternational.sg/phs. Details of the calculation methodology can be found in full at www.esma.europa.eu/sites/default/files/library/2015/11/10_674.pdf

Open-Ended Investment Company

An open-ended collective investment vehicle, structured as an investment company, where new shares are created or redeemed, depending on demand from investors.

Specified Investment Product (SIP)

SIP is a class of investment products defined by the Monetary Authority of Singapore (MAS). Generally, (although not in all instances), financial advisers have to carry out more due diligence, including customer knowledge assessment, when advising about a SIP.

Volatility

The relative rate at which the price of a security or Fund moves up and down. Volatility is found by calculating the annualised standard deviation of daily change in price. If the price of a stock moves up and down rapidly over short time periods, it has high Volatility. If the price almost never changes, it has low Volatility.
